

The Consumer Bankers Association wants to weaken the Indiana Privacy Law. I am opposed to CBA's challenge to Indiana Privacy Law and hope you will oppose the petition to the challenge. Please do not allow the CBA to annoy the residents of Indiana by calling us with telemarketing calls. If I want to do business with their members I can pick up my phone and call them. These calls are more of an annoyance then a business call I do not want in the first place. Thank You.
